

Welcome To South Orange County Ortho-Biologics

ADVANCING REGENERATIVE MEDICINE THROUGH BIOLOGIC THERAPIES THAT ARE SAFE AND MINIMALLY-INVASIVE

Regenerative Medicine is an alternative approach to traditional healing modalities. Science is unlocking the body's natural ability to heal damaged tissue and accelerate the healing process.

These proven technologies provide our patients options and multiple therapy choices.

Which is best for you?

Michael J. Fitzpatrick, MD

SPORTS MEDICINE, ARTHROSCOPIC SURGERY, SHOULDER REPLACEMENTS, and REGENERATIVE MEDICINE

Michael J. Fitzpatrick M.D. is an orthopedic surgeon practicing at Mission Hospital since 2005. Dr. Fitzpatrick has focused his practice in investigating, diagnosing, and treating sports injury. He has special research interests in minimally invasive and arthroscopic surgery.

Dr. Fitzpatrick has 9 years of experience in utilizing regenerative medicine techniques, including PRP, stem cell, and amniotic fluid injections as part of his treatment regimen of musculoskeletal injuries and disorders.

Your Ortho-Biologic Options

PRP

Use your own body's platelet and plasma growth factors to treat arthritis and tendonitis.

The whole blood is comprised of plasma, red, and white blood cells. While the main function of the red and white blood cells are to deliver oxygen to the various parts of the body and fight minor infections, the plasma portions of the whole blood function to heal from injury.

Platelet Rich Plasma (PRP) Standard

- Single kit\$800
- Double Kit.....\$950

Platelet Rich Plasma Customized

- Angel System.....\$1100

Stem Cell

Using Stem Cells to restore your body's natural ability to heal.

Cells within the body that have the remarkable potential to divide and develop into different types of tissue cells which are termed as multipoint stem cells. Stem Cells serve as an internal repair system replenishing other cells throughout the body's life. Our clinic obtains stem cells from your bone marrow and inject into areas of injury and inflammation

BMAC \$2700

BMAC + Anesthesia..... \$4200

Amniotic Fluid

Utilize the cells and growth factors in amniotic fluid to stimulate your healing.

Decades of research and testing have proven the safety of amniotic tissue and cells. The cells are termed immune privileged and are not rejected by the body but harmoniously work with the patient's native cells and surrounding tissues.

Amniotic Fluid

- 1cc..... \$2700
- 2cc.....\$4430

* We can arrange for long term storage of your harvested stem cell. Please let us know if you're interested
